

Select "All configurations"

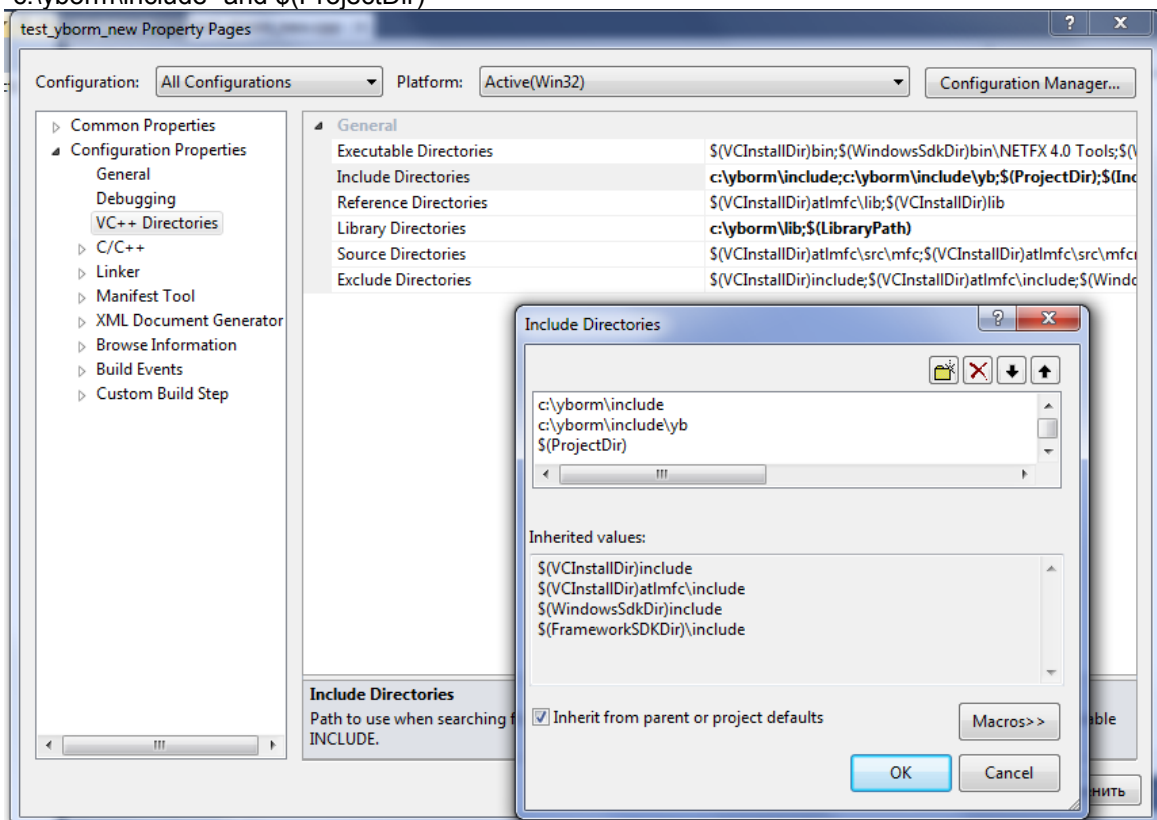

At "Configuration Properties/General/Character Set" select "Not Set"

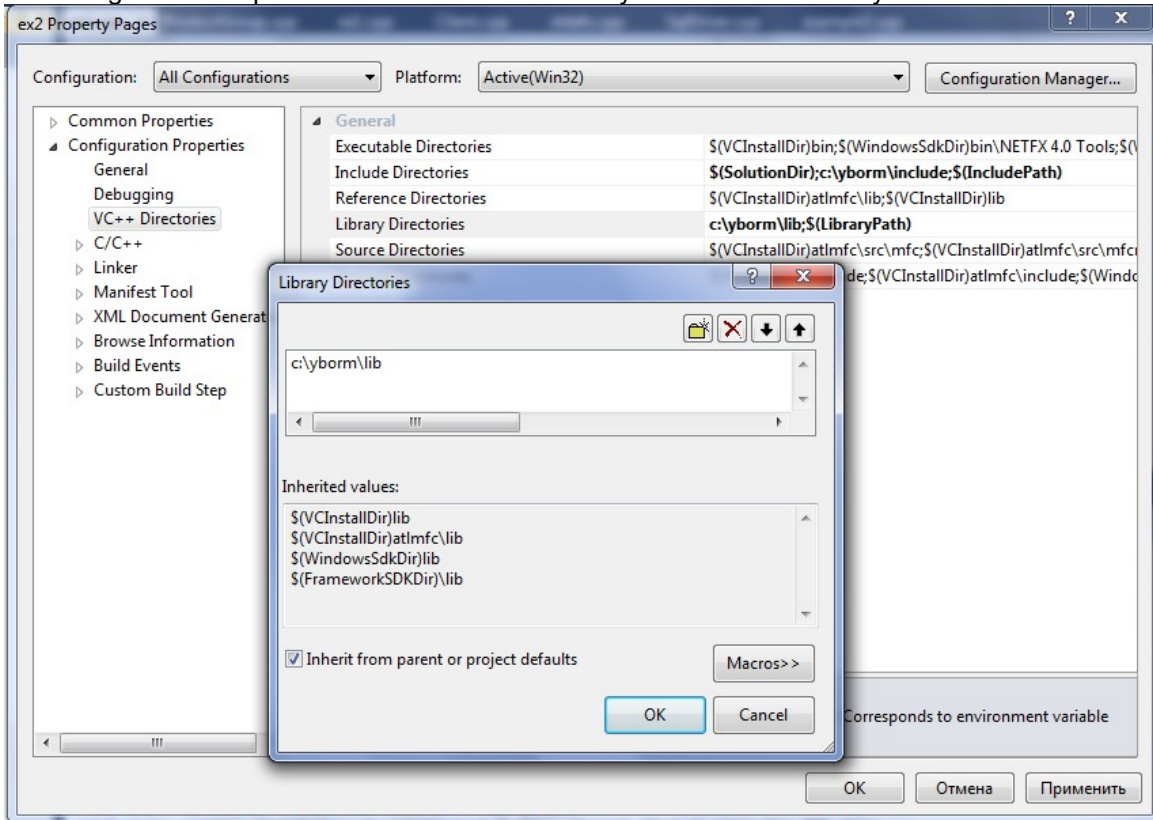

At "Configuration Properties/Debugging/Environment" add "c:\yborm\bin" to your project's PATH

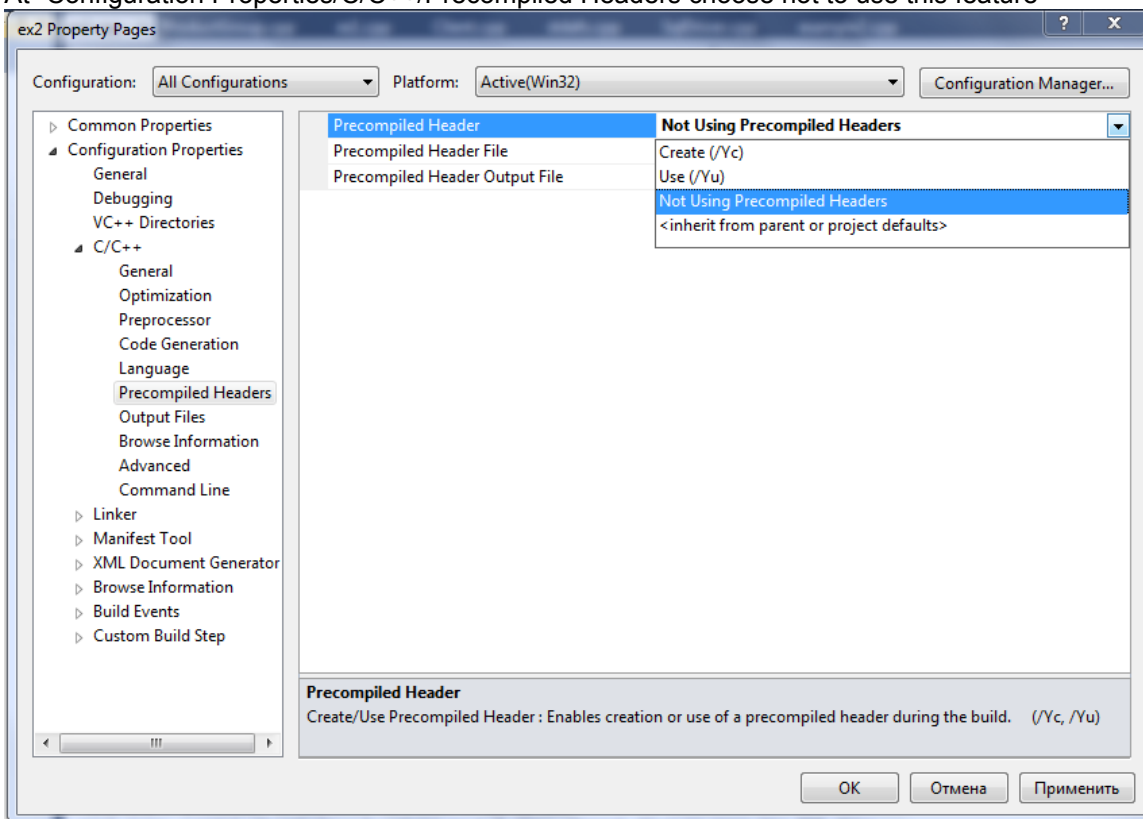

At "Configuration Properties/VC++ Directories/Include Directories" add "c:\yborm\include\yb", "c:\yborm\include" and \$(ProjectDir)

At "Configuration Properties/VC++ Directories/Library Directories" add "c:\yiborm\lib"

At "Configuration Properties/C/C++/Precompiled Headers choose not to use this feature"

At "Configuration Properties/Linker/Input/Additional Dependencies" add YB.ORM libraries and friends:

ybutil.lib

yborm.lib

libxml2.lib

libboost_date_time-vc100-mt-gd-1_46_1.lib

libboost_thread-vc100-mt-gd-1_46_1.lib
